**Aid4Mail eDiscovery Trial**

**Filter Options**  
Define a date range and/or a Words List filter to process only the messages that are of interest to you. Dates use the yyyy/mm/dd format. To identify text in emails, enter one search criteria per line in the Words List; matching is case sensitive for lines that have one or more uppercase characters.

Filter source messages

**Filter Mail by Date**

Ignore if older than...  Ignore if newer than...  Date to check:

**Filter Mail by Content**

Process if words from list...

**Filter Scripts**

Export emails just once  
No Script Filter  
Only emails from Gmail address  
Only mail with JPG/MOV/AVI files  
Only process deleted emails  
Skip duplicates on export
